IN #366-82

D/Pers
82-9130
23 November 1982

MEMORANDUM FOR: Director of Personnel

THROUGH: Deputy Director for Science and Technology

FROM: STAT

   Acting Director, Foreign Broadcast Information Service

SUBJECT: Compensation for Overtime -   STAT

                                                                         STAT
REFERENCE:

1. This memorandum contains a request for your approval in
paragraph four.

2. [   ], a GS-12 programming analyst for   STAT
the Office of Training and Education, has been selected by FBIS to
rewrite the JPRS Independent Contractor (IC) Software Package. Agreement
has been reached in principle with OT&E and with [   ] to have   STAT
him spend up to 160 hours overtime to rewrite the package in RAMIS
programming language. The project is to be completed by 1 February 1983.

3. The JPRS Independent Contractor Software Package is a set of
computerized instructions written in the PL/1 language and used by FBIS to
produce monthly expenditure reports, the backbone of our management
statistics. By rewriting the software in RAMIS, the system would be
capable of generating new reports and solving ad hoc needs. [   ] STAT
overtime would constitute work substantially unrelated to his work in
OT&E.

4. FBIS requests he be exempt from the eight-hour overtime donation
requirement, based upon the second job concept outlined in reference.
